DETAILED ACTION

Election/Restrictions

1. Applicant's election of claims 1-25 in the reply filed on June 11, 2004 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). Specifically, the applicant elected with traverse, submitting that claim 1 is generic. However, as to the election between the claims of group I and group II, the applicant provided no reasoning or arguments. Therefore, the election of the claims of group I is found to be an election without traverse. As to the species election, the applicant's argument that claim 1 is generic is acceptable, and the species restriction requirement is withdrawn. Therefore, the instant office action will address claims 1-25.

Information Disclosure Statement

2. The references cited on the IDS document, submitted on September 5, 2003, have been considered.

3. This application is in condition for allowance except for the following formal matters:

Drawings

3A. Figure 1 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid

Art Unit: 2829

abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.121(d)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

3B. Claims 3 and 17 are objected to because of the following informalities:

Claim 3, line 5: change "and" to - - or - -;

Claim 17, line 4: change "and" to - - or - -.

Appropriate correction is required.

Allowable Subject Matter

- 4. Claims 1-25 are allowed.
- 5. The following is a statement of reasons for the indication of allowable subject matter. The prior art of record and to the examiner's knowledge does not teach or render obvious, at least to the skilled artisan, the instant invention regarding:

a method of manufacturing a semiconductor device including forming a trench dielectric that has a sidewall adjacent to the active surface of a semiconductor substrate, forming spacers on the sidewalls, such that the spacers cover the sidewall at least at a bottom portion nearest the active surface and removing the spacer *after* an etching step has been performed on the spacer and dielectric materials, in combination with the other claimed limitations, as recited in independent claim 1 (claims 2-7 are dependent upon claim 1);

a method of manufacturing a semiconductor device including the steps of forming a spacer adjacent a sidewall of a trench dielectric material, and then performing an etching step such that the corner area is protected by the spacer material, in combination with the other claimed limitations, as recited in each of independent claims 8, 12 and 15 (claims 9-11 are dependent upon claim 9; claims 13-14 are dependent upon claim 12; claims 16-25 are dependent upon claim 15).

The following reference is cited as being particularly relevant to the applicant's disclosure: De Coster et al. (6,746,935 B2).

Conclusion

- **6.** Prosecution on the merits is closed in accordance with the practice under *Ex* parte Quayle, 1935 C.D. 11, 453 O.G. 213.
- 7. A shortened statutory period for reply to this action is set to expire TWO MONTHS from the mailing date of this letter.
